

DynaMelt 11

Hot Melt

DynaMelt 11 is a hot melt for carton and case sealing where excellent heat resistance and adhesion are required. DynaMelt 11 is also recommended for evaluation in microwave packaging applications where high heat resistance is needed.

FDA Status

Complies with 21CFR175.105

ApplicationsCarton & Case Sealing Adhesive with
Excellent Heat Resistance

Typical Properties

Color	Yellow Solid
Viscosity	700 cps @ 350°F
Speed of Set	.5 sec.
Density; Lbs./Gallon	8.0
Softening Point	235°F
Application Temperature	325 – 375°F
Applicators	All Standard Wheel & Nozzle Applicators
Odor	Low
Clean up	Paraffin Wax

PackagingMini Slat, Packed in Double Wall Corrugated
Carton Lined with Polyethylene Protection
